

STATEMENT OF CUSTOMER RESPONSIBILITIES INVENTORY OF ITEMS OF HIGH VALUE

Atlas Registration No. _____

Please list below all the items in this shipment considered to be of high value. The driver must see each item. The list should not include normal household items such as furniture, appliances, television and stereo sets, etc. The list should include jewelry, coin and stamp collections, antiques, precious stones and metals, valuable paintings, etc.

THE PURPOSE OF THIS FORM IS TO ASSIST THE CUSTOMER IN DETERMINING TOTAL VALUE OF THE SHIPMENT AND TO ASSIST ATLAS VAN LINES, INC. IN DETERMINING WHICH ITEMS NEED SPECIAL HANDLING AND PROTECTION.

A. In order for my shipment to be transported safely by Atlas Van Lines, Inc. ("Atlas"), I understand that the following items should not be shipped:

- Flammable items (aerosol cans, unpurged propane tanks, etc.)
- Medicines
- Ammunition
- Paints
- Other liquids that may spill

I am responsible for not including any of these items in cartons that I pack.

B. I understand that, due to their value and/or difficulty of replacing them, Atlas has directed me not to include the following items in my shipment, but to transport them personally:

- Jewelry (other than costume jewelry of minor value)
- Coins, currency or any other negotiable paper (stock certificates, bonds, notes, etc.)
- Important papers (deeds, titles, bank books, tax & similar documents)
- Collections (stamps, baseball cards, and the like)
- Any other item of high value

If I choose to ship these items with Atlas, contrary to this direction, I understand that I am responsible for notifying Atlas of the items of this nature to be shipped in order that Atlas may take the necessary precautions for them. In the unlikely event of a loss, I further understand that I will be responsible for proving that these items were in my shipment in order to be able to recover for them.

C. I understand that it is my responsibility to acknowledge any damaged or missing items at time of delivery. I understand that Atlas encourages me to "check off" the items as they are delivered on the inventory and note any damages on it.
